DSR Pro-Series Battery Jump-Starter

Features: 3 amp built-in automatic charger, reverse hook-up alarm, 2-function digital display that indicates internal and vehicle battery voltage and percent of charge. Indicates charging systems voltage while engine is running. Heavy duty clamps with copper jaws. Non-Spill batteries - store in any position. When in the Off position, the power to the internal battery is shut off at the clamps, eliminating potential shorting of clamps and battery drain.

PSJ-2212 2200 Amp DSR Jump-Starter Single 22Ah battery for 12 volt Systems. 330 Cranking Amps.
